Is property located within a historic district?: ☒ no ☐ yes Name of District: _____

Is district listed?: ☒ no ☐ yes

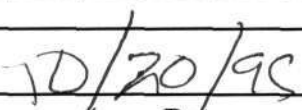

Documentation on the property/district is presented in: Project Review and Compliance Files

Description of Property and Eligibility Determination (Use continuation sheet if necessary and attach map and photo)

The farm complex at 3371 Mattawoman Beantown Road is composed of a single family dwelling, a one-story garage, a one-story shed, and two barns. The wood frame house is one-and-one-half stories in height and three bays in width. The house is covered by a dual-pitched, hipped roof clad in asphalt shingles. The dwelling is symmetrical with a central door. A hipped roof dormer pierces the roof above the entry. The house is clad with horizontal siding. The wood frame garage, located to the east of the dwelling, is covered by a side gable roof. Further to the east, the small shed has a shed roof. Located beyond the shed is a two-story, front gambrel roof barn. The barn is clad with vertical wood siding and has a standing seam metal roof. The second barn is located to the north. It is also a two-story, front gambrel roof barn. The barn is clad with vertical wood siding and has a standing seam metal roof.

Most inhabitants of Charles County were engaged in farming at the time of the first settlement. The barn was the principle building erected on a farm which provided space for cows, horses, equipment, and hay, straw or tobacco storage. Throughout the 19th century, barns increased in size or were newly built to include space for smaller animals, such as poultry and pigs, and as a place for the threshing and storage of grain. Their size also increased
